Dear Prof. Seyed Mojtaba Zebarjad,

The reviewing process of the 82 abstracts submitted to the ECCOMAS Conference - Mechanical Response of Composites (COMPOSITES 2007) has completed. All abstracts were reviewed by the International Scientific Committee.

We are pleased to inform you that your abstract entitled "An Invest on the dependency of compressibility coefficient of HDPE on nano-si calcium carbonate" has been accepted for a poster presentation at C 2007.

The programme of COMPOSITES 2007 will be available on the 30th June. The conference will not have parallel sessions; it will have 45 oral presentations in 12 sessions, 3 invited lectures and 37 poster presentations in 6 sessions.

The full-length papers should be submitted on-line (www.fe.up.pt/composites2007) by July 15. The MS-Word and LaTeX templates for the full-length papers will be available in the site of conference week.

Looking forward to see you in Porto in September,

Yours Sincerely,

ECCOMAS Composites 2007 Local Organising Committee
